# How To Use

Hate-o-meter is simple to use! You can input three possible forms of text i.e single line text, mutli line text or an url. Select your option and enter input. Then select th 'check percent' option. We have designed our algorithm to predict the percent of hate in your input. The amount of percentage will be displayed below. Additionally, if your text is targeting a category from our tool, it will be displayed too. Check the 'About' tab for more information.
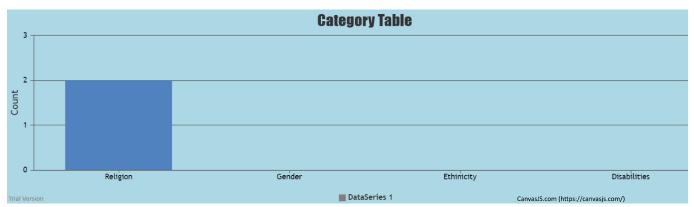

THIS IS STILL IN DEVELOPMENT PHASE
